- ◆ [How to film with an iPhone](#)

## Accessing More Settings

- ◆ [Filmic Pro](#) is an app that will give you access to using 4k Video, change your frame rate, control your white balance, exposure and much more. The app has a one time cost of \$14.99.
- ◆ The second option that is available only on iPhones is [ProMovie Recorder](#). This is a similar version to FilmicPro and the full version cost only \$2.99.
